

BEECHCRAFT® King Air 350i

The world's most legendary turboprop is now the world's most advanced.

It's good to be the King. Meet the icon of business aviation.

The Beechcraft King Air has always done what others in its class could not. Since the very first King Air was introduced in 1964, it has been the leader in capabilities and sales. Its unmatched versatility, reliability and safety are the reasons why individuals, companies and governments in 105 countries around the world have purchased more than 6,500 King Airs.

Fully integrated flight deck. State-of-the-art Collins Pro Line 21™.

The King Air family has always delivered one of the best overall safety records in general aviation. That is due, in large part, to the flight deck. Since the first King Air was introduced, its flight deck design has been continually refined until reaching its current incarnation — the best in the business.

Introducing the revolutionary Flexcabin™ — only from Beechcraft.

The King Air 350i provides time-saving flexibility not found in any other business aircraft. Shuttle corporate employees in the morning, fly a VIP in the afternoon, and in the evening, get a head start on the family vacation. All the while, the standard Rockwell Collins Venue™ Cabin Management System will keep passengers informed, entertained and in command of the cabin environment.
