

BEECHCRAFT® King Air B200GT

Power, dependability and performance in the world's most popular business aircraft.

Travel on your time.

The Beechcraft King Air B200GT takes roominess, flexibility and comfort to a whole new level. With more-powerful Pratt & Whitney Canada engines that deliver up to 308-knot cruise speeds and equally impressive climb performance, the B200GT not only carries more people and cargo than the competition, it gets them there in less time, all while offering the same spacious cabin and state-of-the-art Collins Pro Line 21™ avionics.

Absolute power. The flight deck is a result of four decades of pilot-inspired refinement and millions of flight hours. That refinement includes standard Collins Pro Line 21 fully integrated avionics, along with the latest in such safety- and capability-enhancing equipment as TAWS+, TCAS and RVSM.

Peaceful commute. The cabin of a Beechcraft King Air B200GT is unlike any other in its class. Spacious, comfortable, business-friendly, the King Air B200GT is also quieter, thanks to vibration absorbers mounted throughout the cabin and flight deck.
